DISCUSSION

Marin County Parks is working with One Tam and Greater Farallones Association to develop printed materials about the Bolinas Lagoon restoration effort. The goal of these pamphlets is to inform and educate partners, community members, potential future funders, and other interested parties about the current and future status of the Bolinas Lagoon restoration projects. The first of these documents will be an informational brochure that complements the 2008 *Bolinas Lagoon Ecosystem Restoration Project, Recommendations for Restoration and Management* (also known as the "Locally Preferred Plan"). The new brochure will include sections that describe the landscape, history, and partners that have worked to protect the lagoon. The brochure will also highlight the goals and objectives of existing and future restoration projects.

The draft pamphlet will include an introductory letter from the Bolinas Lagoon Advisory Council. The purpose of this letter is to encourage others to get involved in the process and support the protection and restoration of the lagoon.
