

Notes from meeting re: Art Contemporary Marin 1/19/17

Attending: Creta Pullen for ACM
Chris Fitting, Ginny Otis for CSA 33

Creta Pullen has taken charge of planning for the art event that was presented by Claudia Chapline to the CSA33 Board at the October 2016 meeting. Creta lives in Bolinas and has experience dealing with large event planning, permits, County and Park approvals.

The concept is still being determined but it generally includes a combination art and food fair that will take place in both parks on one weekend day. Creta described it as a "Season Opener" in the Spring of 2018 before the high tourist season and possibly on Mother's Day weekend. She intends to continue but expand on the Cuisine on the Green format. She envisions booths rented to vendors and a dog show as well as activities for children and availability for non-profits to distribute information.

She also plans a parade down the Highway – specifics to be determined. She has spoken with Al Engel about using his lots for parking.

KWMR will sponsor the event.

Creta agreed to keep us informed of progress and we agreed to report to the Board.
