RESTORING HABITAT & PROTECTING HOMES

MAYTEN REMOVAL

October 2021

The Marin County Open Space District and Marin County Fire are in partnership to implement a fire fuel reduction project that will help reduce fire risk to neighbors bordering Baltimore Canyon open space while also protecting habitat within the preserve.

In November 2020, Marin County Fire cut mature Mayten trees within the defensible space of neighboring homes, then piled and burnt the material.

In October 2021, Marin County Parks staff will carefully treat the cut stumps and resprouts with a triclopyr-based herbicide to prevent regrowth.
